WORKSHOP FACILITATOR: Debbie Weatherston, PhD

Alliance for the Advancement of Infant Mental Health

RI's infant/early childhood mental health competency-based endorsement recognizes the development of infant and family professionals within an organized system of culturally sensitive, relationship-based infant/early childhood learning and work experiences. RI Endorsement promotes strategic understanding of the work required to intentionally develop and maintain relationships to promote infant/early childhood mental health – creating a more engaged, competent and committed infant/early childhood & family workforce.

We encourage stakeholders to join the discussion about ways to support collaborative practice, training, and professional growth for RI's infant/early childhood & family workforce.

SUPPORTERS:

Paul V. Sherlock Center at Rhode Island College

Rhode Island Foundation

Bradley Hospital
